- **Communication** - Can communicate in Tagalog and English.

PROJECTS

Capstone Project

2024 - 2025

Kapalong Department of Agriculture (AgriChain)

- Developed a blockchain-powered agricultural tracking system ensuring data transparency, immutability, and traceability across the supply chain

Yami POS Project

2024 - 2025

Point of Sale (POS) Web Application

- Built a POS web application for inventory management, sales transactions, and reporting using Next.js, Prisma, and Supabase.

Yami PRO Project

2024 - 2025

Procurment (PRO) Web Application

- Developed a procurement management system for requisitions, approvals, purchase orders, supplier management, and analytics.

Rookie Caffé Project

2024 - 2025

Rookie Cafe Website

- Designed and developed a responsive cafe website showcasing menus, products, business information, and brand presence.

WORK EXPERIENCE

On the Job Training

2026 - Present

Bridge Digital Transformation Inc.

- During my OJT at Bridge Digital Transformation, I assisted in debugging, QA testing, Laravel–Vue development support, GitHub collaboration, UI/UX design using Figma, and AI integration discussions for HRIS systems.
